#### HBT FINANCIAL, INC. ANNOUNCES FIRST QUARTER 2021 FINANCIAL RESULTS

#### First Quarter Highlights

- Net income of \$15.2 million, or \$0.55 per diluted share; return on average assets (ROAA) of 1.64%; return on average stockholders' equity (ROAE) of 17.01%; and return on average tangible common equity (ROATCE)<sup>(1)</sup> of 18.33%
- Adjusted net income<sup>(1)</sup> of \$14.0 million; or \$0.51 per diluted share, adjusted ROAA<sup>(1)</sup> of 1.51%; adjusted ROAE<sup>(1)</sup> of 15.65%; and adjusted ROATCE<sup>(1)</sup> of 16.88%

(1) See "Reconciliation of Non-GAAP Financial Measures" below for reconciliation of non-GAAP financial measures to their most comparable GAAP financial measures.

Bloomington, IL, April 26, 2021 – HBT Financial, Inc. (NASDAQ: HBT) (the "Company" or "HBT Financial"), the holding company for Heartland Bank and Trust Company, today reported net income of \$15.2 million, or \$0.55 diluted earnings per share, for the first quarter of 2021. This compares to net income of \$12.6 million, or \$0.46 diluted earnings per share, for the fourth quarter of 2020, and net income of \$6.2 million, or \$0.23 diluted earnings per share, for the first quarter of 2020.

Fred L. Drake, Chairman and Chief Executive Officer of HBT Financial, said, "We delivered strong results for the first quarter of 2021, as our continued healthy asset quality, consistent sources of non-interest income, and disciplined expense control combined to produce a high level of profitability. We remain focused on operating a highly efficient institution. We are executing on expense management initiatives to ensure that we continue to deliver strong performance in a challenging environment for revenue growth. With the vaccine rollout in Illinois progressing and expectations for economic activity to increase across the remainder of the year, we are optimistic that we will have more opportunities to deploy our excess liquidity as loan demand in our markets improves."

#### **Adjusted Net Income**

In addition to reporting GAAP results, the Company believes adjusted net income and adjusted earnings per share, which adjust for the additional C Corp equivalent tax expense for periods prior to October 11, 2019, net earnings (losses) from closed or sold operations, charges related to termination of certain employee benefit plans, realized gains (losses) on sales of securities, and mortgage servicing rights ("MSR") fair value adjustments, provide investors with additional insight into its operational performance. The Company reported adjusted net income of \$1.4.0 million, or \$0.51 adjusted diluted earnings per share, for the first quarter of 2021. This compares to adjusted net income of \$1.4 million, or \$0.45 adjusted diluted earnings per share, for the fourth quarter of 2020, and adjusted net income of \$8.4 million, or \$0.30 adjusted diluted earnings per share, for the first quarter of 2020 (see "Reconciliation of Non-GAAP Financial Measures" tables).

#### Net Interest Income and Net Interest Margin

Net interest income for the first quarter of 2021 was \$29.1 million, nearly unchanged from \$29.2 million for the fourth quarter of 2020. The slight decrease was primarily attributable to lower yields on earning assets which was almost entirely offset by an increase in average balances.

Relative to the first quarter of 2020, net interest income decreased \$1.5 million, or 5.0%. The decline was primarily attributable to lower yields on average interest-parning assets

Net interest margin for the first quarter of 2021 was 3.25%, compared to 3.31% for the fourth quarter of 2020. The decrease was primarily attributable to increases in the average balances of lower yielding securities and deposits with banks, as a result of funds received from the forgiveness of Paycheck Protection Program (PPP) loans and federal economic stimulus received by retail customers. The contribution of acquired loan discount accretion to net interest margin remained low at 1 basis point during the first quarter of 2021 and 2 basis points during the fourth quarter of 2020.

Relative to the first quarter of 2020, net interest margin decreased from 4.03%. The decrease was due primarily to the decline in the average yield on earning assets. The contribution of acquired loan discount accretion to net interest margin was 5 basis points during the first quarter of 2020.

#### Noninterest Income

Noninterest income for the first quarter of 2021 was \$10.8 million, a decrease of 2.6% from \$11.1 million for the fourth quarter of 2020. The decrease was primarily attributable to a \$0.9 million decrease in gains on sale of mortgage loans as a result of less refinancing activity and normal seasonality. Additionally, wealth management fees decreased \$0.3 million, following strong results during the fourth quarter of 2020, and service charges on deposit accounts decreased \$0.2 million as a result of lower overdraft incidences. Mostly offsetting these decreases was a positive \$1.7 million mortgage servicing rights ("MSR") fair value adjustment included in the first quarter 2021 results, compared to a positive \$0.4 million MSR fair value adjustment included in the fourth quarter 2020 results.

Relative to the first quarter of 2020, noninterest income increased 105.8% from \$5.3 million, primarily due to the first quarter of 2020 results including a negative \$2.2 million MSR fair value adjustment. The \$1.7 million increase in noninterest income, net of MSR fair value adjustments, from the first quarter of 2020 was primarily due to a \$1.6 million increase in gains on sale of mortgage loans as a result of the strong mortgage refinance environment that started in the second quarter of 2020.

#### Noninterest Expense

Noninterest expense for the first quarter of 2021 was \$22.5 million, nearly unchanged from \$22.7 million for the fourth quarter of 2020. Decreases in marketing and data processing expenses were mostly offset by increases in occupancy and employee benefits expenses. Additionally, nonrecurring costs related to systems conversion for the consolidation of State Bank of Lincoln into Heartland Bank and Trust Company were \$0.3 million during the first quarter of 2021 and \$0.3 million during the fourth quarter of 2020, consisting of primarily data processing expenses.

Relative to the first quarter of 2020, noninterest expense decreased 3.3% from \$23.3 million. The decline was primarily attributable to the first quarter of 2020 results including a \$0.8 million charge for the supplemental executive retirement plan (SERP) which was terminated in June 2019 and paid out in June 2020.

#### **Branch Rationalization Plan**

In April 2021, the Company made plans to close or consolidate six branches during the third quarter of 2021. This branch rationalization plan is expected to result in approximately \$0.8 million of pre-tax nonrecurring costs, primarily related to asset impairment charges and severance payments. When fully realized, the Company estimates annual cost savings, net of associated revenue impacts, related to the branch rationalization plan to be approximately \$1.1 million.

Mr. Drake commented, "We conducted a comprehensive analysis to determine the appropriate size of our branch network given the increased usage of our online and mobile banking services. The branch rationalization plan will better position our bank for the evolving way that customers access banking services and will drive improved operating efficiencies. We plan to continue investing in technology to offer our customers a superior experience through our digital banking platform, while maintaining an appropriately sized branch network that will ensure that we continue to offer convenient in-person banking services and have a strong presence in our communities."

#### Loan Portfolio

Total loans outstanding, before allowance for loan losses, were \$2.27 billion at March 31, 2021, compared with \$2.25 billion at December 31, 2020 and \$2.13 billion at March 31, 2020. The \$23.7 million increase in loans from December 31, 2020 was primarily attributable to an increase in PPP loans, as originations of second draw PPP loans exceeded the payoffs and paydowns from PPP loan forgiveness. The \$52.8 million decrease in total loans outstanding, net of PPP loans, from March 31, 2020 was primarily due to a \$40.8 million reduction in balances on existing lines of credit.

#### Deposits

Total deposits were \$3.36 billion at March 31, 2021, compared with \$3.13 billion at December 31, 2020 and \$2.73 billion at March 31, 2020. The \$225.4 million increase in total deposits from December 31, 2020 was primarily due to second draw PPP loan proceeds received by commercial customers and federal economic stimulus payments received by retail customers.

#### **Asset Quality**

Nonperforming loans totaled \$9.1 million, or 0.40% of total loans, at March 31, 2021, compared with \$10.0 million, or 0.44% of total loans, at December 31, 2020, and \$15.4 million, or 0.72% of total loans, at March 31, 2020. The decrease in nonperforming loans from December 31, 2020 was primarily attributable to the pay down, pay off, or return to accrual status of several smaller loans. The \$6.3 million reduction in nonperforming loans from March 31, 2020 was primarily attributable to the return to accrual status of one agriculture credit that totaled \$4.8 million at March 31, 2020.

The Company recorded a negative provision for loan losses of \$3.4 million for the first quarter of 2021, compared to a provision for loan losses of \$0.4 million for the fourth quarter of 2020. The negative provision was primarily due to changes to qualitative factors reflecting an improved economic environment and improved asset quality metrics, resulting in a \$1.8 million decrease in required reserve; a decrease in specific reserves on loans individually evaluated for impairment, resulting in a \$1.3 million decrease in required reserves; and a \$0.3 million net recovery during the quarter.

Net recoveries for the first quarter of 2021 were \$0.3 million, or (0.06)% of average loans on an annualized basis, compared to net charge-offs of \$0.2 million, or 0.04% of average loans on an annualized basis, for the fourth quarter of 2020, and net charge-offs of \$0.6 million, or 0.11% of average loans on an annualized basis, for the first quarter of 2020.

The Company's allowance for loan losses was 1.27% of total loans and 315.48% of nonperforming loans at March 31, 2021, compared with 1.42% of total loans and 319.66% of nonperforming loans at December 31, 2020.

#### Capital

At March 31, 2021, the Company exceeded all regulatory capital requirements under Basel III and was considered to be "well-capitalized," as summarized in the following table:

|   | March 31,<br>2021 | Well Capitalized<br>Regulatory<br>Requirements |
|---|-------------------|--|
| Total capital to risk-weighted assets         | 17.37 %           | 10.00 %  |
| Tier 1 capital to risk-weighted assets        | 14.65 %           | 8.00 %   |
| Common equity tier 1 capital ratio            | 13.19 %           | 6.50 %   |
| Tier 1 leverage ratio                         | 9.85 %            | 5.00 %   |
| Total stockholders' equity to total assets    | 9.25 %            | N/A  |
| Tangible common equity to tangible assets (1) | 8.63 %            | N/A  |

<sup>(1)</sup> See "Reconciliation of Non-GAAP Financial Measures" below for reconciliation of non-GAAP financial measures to their most comparable GAAP financial measures.

#### Stock Repurchase Program

During the first quarter of 2021, the Company repurchased 95,462 shares of its common stock at a weighted average price of \$15.86 under its stock repurchase program. The Company's Board of Directors authorized the repurchase of up to \$15 million of its common stock under its stock repurchase program in effect until December 31, 2021. As of March 31, 2021, the Company had \$13.5 million remaining under the current stock repurchase authorization.

#### **Annualization Factor**

The method used to calculate annualization factors for interim period ratios changed in the third quarter of 2020 from financial information previously presented. The annualization factor is now calculated using the number of days in the year divided by the number of days in the interim period. Prior to the third quarter of 2020, annualization factors were calculated as 4 divided by the number of quarters in the interim period, or an annualization factor of 4 for a quarterly period. The change was applied retrospectively to all periods presented and did not have a material impact on the annualized interim ratios.

#### Non-GAAP Financial Measures

Some of the financial measures included in this press release are not measures of financial performance recognized in accordance with GAAP. These non-GAAP financial measures include net interest income (tax-equivalent basis), net interest margin (tax-equivalent basis), originated loans and acquired loans and any ratios derived therefrom, efficiency ratio (tax-equivalent basis), tangible common equity to tangible assets, tangible book value per share, adjusted net income, adjusted return on average assets, adjusted return on average stockholders' equity, and adjusted return on average tangible common equity. Our management uses these non-GAAP financial measures, together with the related GAAP financial measures, in its analysis of our performance and in making business decisions. Management believes that it is a standard practice in the banking industry to present these non-GAAP financial measures, and accordingly believes that providing these measures may be useful for peer comparison purposes. These disclosures should not be viewed as substitutes for the results determined to be in accordance with GAAP; nor are they necessarily comparable to non-GAAP financial measures that may be presented by other companies. See our reconciliation of non-GAAP financial measures to their most directly comparable GAAP financial measures in the "Reconciliation of Non-GAAP Financial Measures" tables.

Excludes loans acquired with deteriorated credit quality that are past due 90 or more days, still accruing totaling \$29 thousand, \$0.6 million, and \$0.3 million as of March 31, 2020, respectively.

(2) Originated loans and acquired loans along with the related credit quality ratios such as nonperforming loans to loans, before allowance for loan losses (originated and acquired) and nonperforming assets to loans, before allowance for loan losses and foreclosed assets (originated and acquired) are non-GAAP financial measures. Originated loans represent loans initially originated by the Company and acquired loans that were refinanced using the Company's underwriting criteria. Acquired loans represent loans originated under the underwriting criteria used by a bank that was acquired by the Company. We believe these non-GAAP financial measures provide investors with information regarding the credit quality of loans underwritten using the Company's policies and procedures.

<sup>(1)</sup> The Company has granted certain restricted stock units that contain non-forfeitable rights to dividend equivalents. Such restricted stock units are considered participating securities. As such, we have included these restricted stock units in the calculation of basic earnings per share and calculate basic earnings per share using the two-class method. The two-class method of computing earnings per share is an earnings allocation formula that determines earnings per share for each class of common stock and participating security according to dividends declared (or accumulated) and participation rights in undistributed earnings.

### Forward-Looking Statements

Certain statements contained in this presentation are forward-looking statements. Forward-looking statements may include statements relating to our future plans, strategies and expectations, as well as the economic impact of COVID-19 and the related impacts on our future financial results and statements about our near-term outlook, including near-term loan growth, not interest margin, provision for loan losses, service charges on deposit accounts, mortgage banking profits, wealth management fees, expenses, asset quality, capital levels and continued earnings. Forward looking statements are generally identifiable by use of the words "believe," "may," "will," "should," "could," "expect," "estimate," "intend," "anticipate," "project," "plan" or similar expressions. Forward looking statements are frequently based on assumptions that may or may not materialize and are subject to numerous uncertainties that could cause actual results to differ materially from the results anticipated or projected and which could materially and adversely affect our operating results, financial condition or prospects include, but are not limited to: the severity, magnitude and duration of the COVID-19 pandemic; the direct and indirect impacts of the COVID-19 pandemic and governmental responses to the pandemic on our operations and our customers' businesses; the disruption of global, national, state and local economies associated with the COVID-19 pandemic, which could affect our capital levels and earnings, impair the ability of our borrowers to repay outstanding loans, impair collateral values and further increase our allowance for credit losses; our asset quality and any loan charge-offs; the composition of our loan portfolio; time and effort necessary to resolve nonperforming assets; environmental liability associated with our lending activities; the effects of the current low interest rate environment or changes in interest rate environment or changes in interest rates on our net interest margin, our investments, and our monadriant

#### Non-GAAP Financial Measures

This presentation includes certain non-GAAP financial measures. While HBT Financial, Inc. ("HBT" or the "Company") believes these are useful measures for investors, they are not presented in accordance with GAAP. You should not consider non-GAAP measures in isolation or as a substitute for the most directly comparable or other financial measures calculated in accordance with GAAP. Because not all companies use identical calculations, the presentation herein of non-GAAP financial measures may not be comparable to other similarly titled measures of other companies. Tax equivalent adjustments assume a federal tax rate of 21% and state income tax rate of 9.50% during the three months ended March 31, 2021, December 31, 2020, September 30, 2020, June 30, 2020, and March 31, 2020, and the years ended December 31, 2020, 2019 and 2018, and a federal tax rate of 35% and state income tax rate of 8.63% for the year ended December 31, 2017. For a reconciliation of the non-GAAP measures we use to the most comparable GAAP measures, see the Appendix to this presentation.

# Securities Portfolio Overview

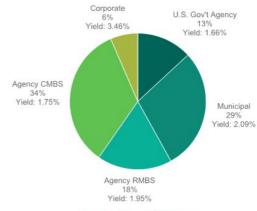

### Overview

- Company's debt securities consist primarily of the following types of fixed income instruments:
  - Agency MBS: MBS pass-throughs, CMOs, and Agency CMBS
  - Municipal Bonds: weighted average NRSRO credit rating of AA/Aa2
  - Corporate Bonds: AAA covered bonds, Supra Sovereign Debt, and Investment Grade Corporate and Bank Subordinated Debt
  - Government Agency Debentures and SBA-backed Full Faith and Credit Debt
- Investment strategy focused on maximizing returns and reducing the Company's asset sensitivity with high credit quality intermediate duration investments
- Company emphasizes predictable cash flows that limit faster prepayments when rates decline or extended durations when rates rise
- On March 31, 2021, the Company transferred certain debt securities from AFS to HTM to better reflect revised intentions due to possible market value volatility, resulting from a potential rise in interest rates

Financial data as of March 31, 2021

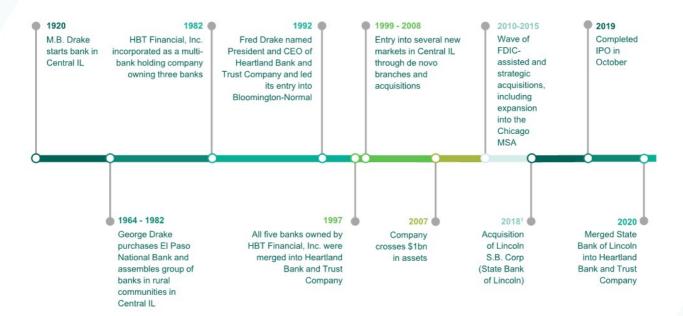

## Near-Term Outlook

- Loan balances (excluding the impact of PPP loans) expected to remain relatively flat until demand improves with a more sustained economic recovery
- Focused on supporting net interest income
  - > NIM pressure (excluding the impact of PPP loans) expected to continue to moderate in Q2 2021
- Card income expected to remain at recent run rates
- Service charges on deposit accounts expected to remain flat
- Wealth management fees expected to grow moderately
- Mortgage banking profits expected to decline slightly in Q2 2021 relative to Q1 2021 due to less refinancing activity
- Branch rationalization
  - > Plan to close or consolidate six branches during Q3 2021
  - > Expected to result in approximately \$0.8 million of pre-tax nonrecurring costs, with annual cost savings, net of associated revenue impacts, of approximately \$1.1 million.
- Continued strong credit metrics and improving economic conditions expected to allow for very modest provision level
- Balanced approach to capital deployment with flexibility to support faster organic growth, the current cash dividend and share repurchases
- Well-positioned to capitalize on accretive acquisition opportunities

Small enough to know you, big enough to serve you

#### Preserve strong ties to our communities

- Drake family involved in Central IL banking since
- Management lives and works in our communities
- Community banking and relationship-based approach stems from adherence to our Midwestern values
- Committed to providing products and services to support the unique needs of our customer base
- Nearly all loans originated to borrowers domiciled within 60 miles of a branch

# Deploy excess deposit funding into loan growth opportunities

- Highly defensible market position (Top 3 deposit market share rank in 6 of 7 largest core mid-sized markets in Central Illinois) that contributes to our strong core deposit base and funding advantage
- Continue to deploy our excess deposit funding (68% loan-to-deposit ratio) into attractive loan opportunities in larger, more diversified markets
- Efficient decision-making process provides a competitive advantage over the larger and more bureaucratic money center and super regional financial institutions that compete in our markets

# Maintain a prudent approach to credit underwriting

- Robust underwriting standards will continue to be a hallmark of the Company
- Maintained sound credit quality and minimal originated problem asset levels during the Great Recession
- Diversified loan portfolio primarily within footprint
- Underwriting continues to be a strength as evidenced by only 4bps NCOs / loans in 2020

# Pursue strategic acquisitions and sustain strong profitability

- Positioned to be the acquirer of choice for many potential partners in and adjacent to our existing markets
- Successful integration of 8 community bank acquisitions in the last 13 years
- Chicago MSA, in particular, has ~100 banking institutions with less than \$1bn in assets
- 1.51% ROAA¹ and 3.30% NIM² in Q1 2021
- Highly profitable through the Great Recession

<sup>\*</sup> Annualized measure. The method used to calculate annualization factors for interim period ratios has changed from financial information previously presented. The annualization factor is now calculated using the number of days in the year divided by the number of days in the interim period. Previously, annualization factors were calculated as 4 divided by the number of quarters in the interim period, or an annualization factor of 4 for a quarterly period. The change was applied retrospectively to all periods presented and did not have a material impact on the annualized interim ratios
