Bloomington, IL, January 25, 2023 – HBT Financial, Inc. (NASDAQ: HBT) (the "Company" or "HBT Financial" or "HBT"), the holding company for Heartland Bank and Trust Company, today reported net income of \$17.2 million, or \$0.59 diluted earnings per share, for the fourth quarter of 2022. This compares to net income of \$15.6 million, or \$0.54 diluted earnings per share, for the third quarter of 2022, and net income of \$13.6 million, or \$0.47 diluted earnings per share, for the fourth quarter of 2021.

Fred L. Drake, Chairman and Chief Executive Officer of HBT Financial, said, "We had an excellent fourth quarter to complete 2022, thanks to growth in average earning assets, expanded net interest margin and solid non-interest income, resulting in increased book value and tangible book value per share. We expect to deliver good results again for our shareholders in 2023. We are excited to close the pending merger with Town and Country Financial Corporation ("Town and Country") during the first quarter, which will add scale and efficiency, generate profitable growth and enhance the long-term value of our company. Town and Country has a long history in their markets and is a high performing bank – we look forward to teaming up to build future success."

"While the economy faces a lot of uncertainty, we are confident in our ability to manage through challenging times. Our bank has a strong foundation, with a proven executive team, an established core deposit base and a conservative, well-diversified loan portfolio."

Adjusted Net Income

In addition to reporting GAAP results, the Company believes adjusted net income and adjusted earnings per share, which adjust for acquisition expenses, branch closure expenses, gains (losses) on sale of closed branch premises, net earnings (losses) from closed or sold operations, charges related to termination of certain employee benefit plans, realized gains (losses) on sales of securities, and mortgage servicing rights fair value adjustments, provide investors with additional insight into its operational performance. The Company reported adjusted net income of \$17.9 million, or \$0.62 adjusted diluted earnings per share, for the fourth quarter of 2022. This compares to adjusted net income of \$15.9 million, or \$0.55 adjusted diluted earnings per share, for the third quarter of 2022, and adjusted net income of \$14.2 million, or \$0.49 adjusted diluted earnings per share, for the fourth quarter of 2021 (see "Reconciliation of Non-GAAP Financial Measures" tables).

Cash Dividend

On January 24, 2023, the Company's Board of Directors declared a quarterly cash dividend of \$0.17 per share on the Company's common stock (the "Dividend"). The Dividend is payable on February 14, 2023 to shareholders of record as of February 7, 2023. This represents an increase of \$0.01 from the previous quarterly dividend of \$0.16 per share.

Mr. Drake noted, "We are very pleased that our strong financial performance and capital ratios have enabled us to further increase our quarterly cash dividend while maintaining sufficient capital to support the continued growth of the Company."

Net Interest Income and Net Interest Margin

Net interest income for the fourth quarter of 2022 was \$42.2 million, an increase of 12.8% from \$37.4 million for the third quarter of 2022. The increase was primarily attributable to higher yields on interest-earning assets, with the yield on loans increasing 70 basis points to 5.61%, while the cost of funds only increased 11 basis points to 0.28%. Contributing to the increased loan interest income were higher nonaccrual interest recoveries which totaled \$1.3 million during the fourth quarter of 2022 and \$0.1 million during the third quarter of 2022.

Relative to the fourth quarter of 2021, net interest income increased 28.4% from \$32.9 million. The increase was primarily attributable to higher yields on interest-earning assets, a more favorable asset mix, and nonaccrual interest recoveries. Partially offsetting these improvements was a decrease in PPP loan fees recognized as loan interest income which totaled \$1.6 million during the fourth quarter of 2021. Additionally, nonaccrual interest recoveries totaled \$0.5 million during the fourth quarter of 2021.

Net interest margin for the fourth quarter of 2022 was 4.10%, compared to 3.65% for the third quarter of 2022. The increase was primarily attributable to higher yields on interest-earning assets. The contribution of nonaccrual interest recoveries to net interest margin was 13 basis points during the fourth quarter of 2022 and 1 basis point during the third quarter of 2022. Additionally, acquired loan discount accretion contributed 2 basis points to net interest margin during the fourth quarter of 2022 and 2 basis points during the third quarter of 2022.

Relative to the fourth quarter of 2021, net interest margin increased from 3.17%. This increase was primarily attributable to higher yields on interest-earning assets and a more favorable mix of interest-earning assets. Nonaccrual interest recoveries contributed 5 basis points to net interest margin, and acquired loan discount accretion contributed 6 basis points to net interest margin, during the fourth quarter of 2021.

Noninterest Income

Noninterest income for the fourth quarter of 2022 was \$7.9 million, a decrease of 4.2% from \$8.2 million for the third quarter of 2022. The decrease was primarily attributable to the fourth quarter 2022 results including a negative \$0.3 million mortgage servicing rights ("MSR") fair value adjustment, while the third quarter of 2022 included a positive \$0.4 million MSR fair value adjustment. Partially offsetting this decline was a \$0.4 million increase in wealth management fees, primarily due to increased farmland brokerage service fees.

Relative to the fourth quarter of 2021, noninterest income decreased 15.7% from \$9.4 million. The decline was primarily due to a \$0.7 million decrease in gains on sale of mortgage loans. Additionally, the fourth quarter of 2021 results included a positive \$0.3 million MSR fair value adjustment.

Noninterest Expense

Noninterest expense for the fourth quarter of 2022 was \$27.5 million, a 14.6% increase from \$24.0 million for the third quarter of 2022. The increase was primarily due to a \$2.6 million accrual related to pending legal matters, a \$0.5 million increase in salaries expense, and a \$0.4 million increase in benefits expense driven by higher medical benefit costs.

Relative to the fourth quarter of 2021, noninterest expense increased 12.8% from \$24.4 million, also primarily attributable to the accrual for pending legal matters and increased salaries and benefits expenses.

Loan Portfolio

Total loans outstanding, before allowance for loan losses, were \$2.62 billion at December 31, 2022, compared with \$2.58 billion at September 30, 2022 and \$2.50 billion at December 31, 2021. The \$40.3 million increase in total loans from September 30, 2022 was primarily attributable to growth in the multi-family and commercial and industrial categories. The \$26.1 million increase in commercial and industrial loans was driven primarily by higher balances on lines of credit across a variety of industries.

Deposits

Total deposits were \$3.59 billion at December 31, 2022, compared with \$3.64 billion at September 30, 2022 and \$3.74 billion at December 31, 2021. The \$56.4 million decrease from September 30, 2022 was primarily attributable to lower balances maintained in public funds and business accounts, while balances maintained in retail accounts remained nearly unchanged.

Asset Quality

Nonperforming loans totaled \$2.2 million, or 0.08% of total loans, at December 31, 2022, compared with \$3.2 million, or 0.12% of total loans, at September 30, 2022, and \$2.8 million, or 0.11% of total loans, at December 31, 2021.

The Company recorded a negative provision for loan losses of \$0.7 million for the fourth quarter of 2022, compared to a provision for loan losses of \$0.4 million for the third quarter of 2022. The negative provision was primarily due to \$0.9 million of net recoveries, partially offset by a \$0.3 million increase in required reserves, resulting primarily from the increase in loans during the fourth quarter of 2022.

The Company had net recoveries of \$0.9 million, or (0.14)% of average loans on an annualized basis, for the fourth quarter of 2022, compared to net charge-offs of \$0.1 million, or 0.01% of average loans on an annualized basis, for the third quarter of 2022, and net charge-offs of \$0.1 million, or 0.01% of average loans on an annualized basis, for the fourth quarter of 2021.

The Company's allowance for loan losses was 0.97% of total loans and 1,175% of nonperforming loans at December 31, 2022, compared with 0.97% of total loans and 782% of nonperforming loans at September 30, 2022.

On January 1, 2023, the Company adopted ASU 2016-13 (Topic 326), *Measurement of Credit Losses on Financial Instruments*, commonly referenced as the Current Expected Credit Loss ("CECL") standard. Management is finalizing macroeconomic conditions and forecast assumptions to be used in our CECL model; however, we expect the initial allowance for credit losses and the reserve for unfunded commitments together to be approximately 25% to 50% above the existing allowance for loan loss levels. When finalized, this one-time increase will be recorded, net of tax, as an adjustment to beginning retained earnings. Ongoing impacts of the CECL methodology will be dependent upon changes in economic conditions and forecasts, the credit quality of our loan portfolio, originated and acquired loan portfolio composition, portfolio duration, and other factors.

Stock Repurchase Program

During the fourth quarter of 2022, the Company did not repurchase any shares of its common stock. The Company's Board of Directors authorized a new stock repurchase program that took effect upon the expiration of the Company's prior stock repurchase program on January 1, 2023. The new Program will be in effect until January 1, 2024 and authorizes the Company to repurchase up to \$15 million of its common stock.

Pending Acquisition of Town and Country

On August 23, 2022, HBT and Town and Country, the holding company for Town and Country Bank, jointly announced the signing of a definitive agreement pursuant to which HBT will acquire Town and Country and Town and Country Bank. The acquisition will further enhance HBT's footprint in Central Illinois as well as expand HBT's footprint into metro-east St. Louis. Acquisition-related expenses were \$0.6 million during the fourth quarter of 2022 and \$0.5 million during the third quarter of 2022. The acquisition is expected to close on February 1, 2023.

Near-Term Outlook

- The below near-term outlook excludes the impact of the pending Town and Country acquisition
- Growth in net interest income and disciplined expense control positions the Company to achieve continued strong profitability
- Loan balances expected to be flat to showing modest growth in 1Q23
 - > Loan demand remains strongest in CRE and construction although higher rates are impacting some projects' viability which may reduce new loan production
 - > Seasonal increase in grain elevator line of credit utilization anticipated in 1Q23
- Expect slowing but continued net interest income growth and NIM expansion
 - > Average loan yields are expected to benefit from variable rate loan repricing and new loan production
 - > Increasing deposit costs expected to reduce pace of NIM expansion
- Non-interest income should be relatively consistent with 4Q22 as unfavorable environment for wealth management and mortgage banking revenue continues
- Noninterest expense anticipated to increase modestly (excluding merger-related expense) in 1Q23 with annual merit increases occurring later in the quarter.
- Strong asset quality is expected to continue although provision expense could be more volatile under CECL which will apply in 1Q23
- Stock repurchase program has been refreshed with \$15 million in capacity and will be used opportunistically
- Town and Country's financial results & credit quality through December 31, 2022 have been in-line with merger modeling. Integration planning is going well with the acquisition expected to close on February 1, 2023 and the core conversion expected to occur in April 2023
