Bloomington, IL, October 24, 2022 – HBT Financial, Inc. (NASDAQ: HBT) (the "Company" or "HBT Financial" or "HBT"), the holding company for Heartland Bank and Trust Company, today reported net income of \$15.6 million, or \$0.54 diluted earnings per share, for the third quarter of 2022. This compares to net income of \$14.1 million, or \$0.49 diluted earnings per share, for the second quarter of 2022, and net income of \$13.7 million, or \$0.50 diluted earnings per share, for the third quarter of 2021.

Fred L. Drake, Chairman and Chief Executive Officer of HBT Financial, said, "We delivered another strong financial performance in the third quarter with earnings increasing from the prior quarter, while we continued to maintain exceptional asset quality and strong capital ratios. We generated our strongest loan growth of the year which enabled us to drive further improvement in our mix of earning assets. Combined with stable deposit costs, this resulted in significant expansion in our net interest margin. While continuing to generate strong financial results, we signed a merger agreement with Town and Country Financial Corporation ("Town and Country") that we believe will create additional long-term value for shareholders. The transaction remains on track to close during the first quarter of 2023, and we look forward to welcoming our new customers and colleagues, and capitalizing on our expanded footprint in Illinois that we believe will enhance our ability to continue generating profitable growth in the years to come."

Adjusted Net Income

In addition to reporting GAAP results, the Company believes adjusted net income and adjusted earnings per share, which adjust for acquisition expenses, branch closure expenses, gains (losses) on sale of closed branch premises, net earnings (losses) from closed or sold operations, charges related to termination of certain employee benefit plans, realized gains (losses) on sales of securities, and mortgage servicing rights fair value adjustments, provide investors with additional insight into its operational performance. The Company reported adjusted net income of \$15.9 million, or \$0.55 adjusted diluted earnings per share, for the third quarter of 2022. This compares to adjusted net income of \$13.8 million, or \$0.48 adjusted diluted earnings per share, for the second quarter of 2022, and adjusted net income of \$14.5 million, or \$0.53 adjusted diluted earnings per share, for the third quarter of 2021 (see "Reconciliation of Non-GAAP Financial Measures" tables).

Net Interest Income and Net Interest Margin

Net interest income for the third quarter of 2022 was \$37.4 million, an increase of 8.8% from \$34.4 million for the second quarter of 2022. The increase was primarily attributable to higher yields on interest-earning assets, with the yield on loans increasing 27 basis points to 4.91%, and stable deposit costs, with cost of total deposits only increasing 1 basis point to 0.06%. Paycheck Protection Program ("PPP") loan fees recognized as loan interest income totaled \$0.1 million during the third quarter of 2022 and \$0.6 million during the second quarter of 2022.

Relative to the third quarter of 2021, net interest income increased 21.7% from \$30.7 million. The increase was primarily attributable to higher average balances of interest-earning assets following the NXT Bancorporation, Inc. ("NXT") acquisition in the fourth quarter of 2021, a more favorable asset mix, and higher yields on interest-earning assets. PPP loan fees recognized as loan interest income totaled \$3.0 million during the third guarter of 2021.

Net interest margin for the third quarter of 2022 was 3.65%, compared to 3.34% for the second quarter of 2022. The increase was primarily attributable to higher yields on interest-earning assets. The contribution of PPP loan fees to net interest margin was 1 basis point during the third quarter of 2022 and 6 basis points during the second quarter of 2022. Additionally, the contribution of acquired loan discount accretion to net interest margin was 2 basis points during the third quarter of 2022 and 3 basis points during the second quarter of 2022.

Relative to the third quarter of 2021, net interest margin increased from 3.18%. This increase was primarily attributable to a more favorable mix of interest-earning assets and higher yields on interest-earning assets. PPP loan fees recognized as loan interest income contributed 31 basis points to net interest margin and acquired loan discount accretion contributed 2 basis points to net interest margin during the third guarter of 2021.

Noninterest Income

Noninterest income for the third quarter of 2022 was \$8.2 million, a decrease of 3.7% from \$8.6 million for the second quarter of 2022. The decrease was primarily attributable to a \$0.3 million decrease in wealth management fees, due to a decline in assets under management resulting from the 2022 market performance, and a \$0.1 million decrease in card income due to lower debit and credit card transaction volume.

Relative to the third quarter of 2021, noninterest income decreased 1.9% from \$8.4 million. A \$0.9 million decrease in gains on sale of mortgage loans resulting from a lower level of mortgage refinancing activity was mostly offset by a \$0.6 million improvement to gains (losses) on other assets, as the 2021 results included impairment losses of \$0.6 million related to branches closed during 2021.

Noninterest Expense

Noninterest expense for the third quarter of 2022 was \$24.0 million, a slight increase from \$23.8 million for the second quarter of 2022. Decreases in data processing and marketing expenses were mostly offset by an increase in other noninterest expense, primarily resulting from legal and professional fees related to the pending acquisition of Town and Country.

Relative to the third quarter of 2021, noninterest expense increased 8.3% from \$22.2 million. The increase was primarily attributable to a higher base level of noninterest expense following the NXT acquisition, primarily related to personnel costs and branch operations expenses.

Loan Portfolio

Total loans outstanding, before allowance for loan losses, were \$2.58 billion at September 30, 2022, compared with \$2.45 billion at June 30, 2022 and \$2.15 billion at September 30, 2021. The \$128.1 million increase in total loans from June 30, 2022 was primarily attributable to broad growth in all of our geographic markets and a moderation in payoffs and prepayments.

Deposits

Total deposits were \$3.64 billion at September 30, 2022, compared with \$3.70 billion at June 30, 2022 and \$3.42 billion at September 30, 2021. The \$58.5 million decrease from June 30, 2022 was primarily attributable to lower balances maintained in retail accounts and a seasonal decrease in public fund accounts following annual real estate tax collections.

Asset Quality

Nonperforming loans totaled \$3.2 million, or 0.12% of total loans, at September 30, 2022, compared with \$3.4 million, or 0.14% of total loans, at June 30, 2022, and \$5.5 million, or 0.26% of total loans, at September 30, 2021.

The Company recorded a provision for loan losses of \$0.4 million for the third quarter of 2022, compared to \$0.1 million for the second quarter of 2022. The provision was primarily due to the increase in loans during the third quarter of 2022, resulting in a \$1.1 million increase in required reserves, and a decrease in specific reserves on loans individually evaluated for impairment, resulting in a \$0.7 million decrease in required reserves.

The Company had net charge-offs of \$0.1 million, or 0.01% of average loans on an annualized basis, for the third quarter of 2022, compared to net recoveries of \$0.1 million, or (0.01)% of average loans on an annualized basis, for the second quarter of 2022, and net recoveries of \$21 thousand, or less than 1 basis point of average loans on an annualized basis, for the third quarter of 2021.

The Company's allowance for loan losses was 0.97% of total loans and 781.66% of nonperforming loans at September 30, 2022, compared with 1.01% of total loans and 721.11% of nonperforming loans at June 30, 2022.

Capital

At September 30, 2022, the Company exceeded all regulatory capital requirements under Basel III as summarized in the following table:

	September 30, 2022	Well Capitalized Regulatory Requirements
Total capital to risk-weighted assets	16.34 %	10.00 %

 - > Continued growth expected in all markets, although at a slower pace than 3Q22

 - > Larger increases in deposit costs expected to reduce pace of NIM expansion going forward
- Non-interest income should be relatively consistent in 4Q22 as unfavorable environment for wealth management and mortgage banking revenue continues
- Noninterest expense anticipated to be relatively consistent in 4Q22 (excluding merger-related expense)
- Financial strength of borrowers and conservatively underwritten portfolio expected to result in continued strong asset quality although provision expense could increase to reflect negative economic forecasts
- Stock repurchase program paused until the vote of Town and Country's shareholders on the merger
- Well-positioned to consider additional accretive acquisition opportunities while completing merger with Town and Country
